Kanab High School Community Council 2026-2027

November Meeting Minutes
Nov 12, 2026

In attendance: Natali Button, Tiffany Unsworth, Trevor Stewart, Lisa Church, Kacie Troy, Kelly Stubbs, Delaney Matheson

Absent: Harry Barber, Chad Castagno

1 Lisa Church motioned to accept minutes as presented. Natali Button seconded the motion. All were in favor.

2. Calendar items were reviewed. Sterling Scholar will be held this weekend with several prepared students from Kanab going! The fall season has resulted in retaining all competitors and has shortened their prep time (possibly a positive result?)

3. State Cross Country was successful! Prim Aiken and Levi Clarkson in the top 10 and Coach Levi LeFevre named coach of the year.

4. The Veterans Day assembly was special- held on the football field and combined with the Middle School. Students read essays and American Legion Retired Flags. A talk was given by guest speaker and veteran Karson? Josie?

5. Brandon Mull will be visiting in December to promote reading. He is a popular author of middle grade books. The District sponsors his visit, along with books and prizes to encourage students to read.

6. Sub for Santa will be happening, supporting kids at KHS and possibly their families. Local businesses are supporting by donating items for Sub for Santa, and the Kanab Center will also donate proceeds from Christmas Tree sales.

7. The River trip will most likely occur the week directly following the end of the school year. Hopeful participants will need to sign up and commit, with Seniors getting priority. The Senior trip will be a day trip as opposed to an overnight (less chance for nightmares)

8. Cook Center Parent Guidance is a resource offered through the district and is getting more hits all the time.

9. FFA went to nationals along with the Valley chapter, thanks to the generosity of a donor wanting to support youth.

10. Speaking of generosity, Clint Glover will be volunteering as Girls Basketball Coach this season. He is retired, and therefore cannot receive pay; he would like the pay he would have received to go back into the program.

11. Other generous individuals are found in the KHS golf team. They went to the rescue of the golf course in Mt. Carmel after extensive flooding, helping remove debris and mud from the course.

12. The goals of the school are to maintain their competitive edge in high scores! Also to address absenteeism, which has been a problem since COVID.

13. New in January: KHS will offer an electrician program, taught by Ray Clark and offered through Dixie ATC! It will be hosted next to the Pharmacy tech room. Students will be well on their way to becoming licensed electricians having gone through the program.

The main feeling of the meeting was that there are good people everywhere.

Natali Button motioned to adjourn and Kacie Troy seconded the motion. All were in favor.
